

FEDERAL MISSION FIT

Ravonics LLC is an SBA-certified small business delivering AI/ML, autonomy software, agentic security implementation, edge computing, and applied R&D for defense, intelligence, and federal civilian missions. We pair founder-led AI and federal capture experience with production-mature partner technology and the INSTAR Lab research bench to move prototypes toward compliant, deployable mission systems.

CORE CAPABILITY CLUSTERS

- ▶ **Agentic AI & Responsible Decision Systems** - explainable models, decision audit trails, lifecycle model governance, mission-tuned AI workflows
- ▶ **Edge AI, HPC & GPU Orchestration** - model compression, air-gapped inference, policy-driven GPU scheduling, multi-tenant hardware isolation
- ▶ **Computer Vision & Sensor Fusion** - multi-spectral detection, ISR imagery triage, LiDAR/radar/IR fusion, edge-validated perception pipelines
- ▶ **Autonomous Systems & Robotics Software** - GPS-denied SLAM, swarm coordination, adaptive mission planning, human-robot teaming frameworks
- ▶ **Multi-Domain Intelligence & C2** - common operating picture, air/space/maritime/environmental fusion, DIS interoperability, decision support
- ▶ **Agentic Security Solutions & Implementation** - full cATO support, eMASS real-time integration, ServiceNow security workflows
- ▶ **Post-Quantum Cryptography & Applied R&D** - FIPS 203/204/205 readiness, key management, cryptographic agility, INSTAR physics research
- ▶ **Systems Engineering & Integration** - JADC2-compatible data exchange, legacy modernization, API/data fabric design, tactical network integration

MISSION APPLICATIONS

8 FAST-FIT AREAS FOR PILOTS, TASK ORDERS, AND TRANSITION WORK

- | | |
|---|--|
| ✓ Sovereign AI
Disconnected inference and audit logs | ✓ Edge ISR
Model compression and tactical exploitation |
| ✓ Autonomy
Perception, SLAM, and sensor fusion | ✓ Agentic Security
Zero-trust implementation workflows |
| ✓ cATO Ops
eMASS and ServiceNow integration | ✓ PQC Readiness
Inventory, migration, and crypto agility |
| ✓ R&D Transition
SBIR/STTR research-to-program path | ✓ Workforce AI
Performance tooling and development |

DIFFERENTIATORS

- **Founder-led technical credibility** - Sean Hackney: 30+ yrs computer science, 20+ yrs AI/ML, active U.S. Public Trust, Azure Solutions Architect Expert, AWS SA Professional
- **Federal capture record** - co-authored \$36M+ in federal prime wins as key personnel; DoD CDAO Tradewinds "Awardable" AI platform recognition (individual career)
- **Prototype-to-compliance bridge** - converts promising technology into auditable federal delivery packages with controls, evidence, and transition planning
- **Applied research depth** - INSTAR Lab 501(c)(3) physics and materials-science bench supports SBIR/STTR, PQC, and emerging technology R&D
- **Integration-first delivery** - API/data fabric design, GitOps patterns, control traceability, and deployment paths defined early instead of after prototype success

ECOSYSTEM ASSETS AVAILABLE THROUGH RAVONICS

- **Dream Limited:** capture automation, proposal workflows, opportunity operations
- **Droid Ops Inc:** agentic security implementation, DevSecOps, cATO/eMASS/ServiceNow
- **Viper Dynamics:** autonomous systems, sensor fusion, multi-domain awareness
- **INSTAR Lab Inc:** 501(c)(3) applied physics, AI/ML, SBIR/STTR R&D
- **Cloud & Infrastructure:** Azure Solutions Architect Expert; AWS SA Professional; zero-trust patterns

DELIVERY FOOTPRINT

- **Nationwide delivery:** CONUS-wide remote and on-site delivery

COMPANY SNAPSHOT

UEI	YCBDVKN1A9G7
CAGE	20DS8
SAM.gov	Registered (Active)
Entity	Ravonics LLC
Founded	2026, West Virginia LLC
Status	Small Business; SBA HUBZone Certified
Proof basis	Founder record; partner and INSTAR Lab bench

ACQUISITION PATHWAYS

- ✓ Set-aside and sole-source eligible small business; subcontracting credit available
- ✓ Prime, subcontractor, or technical team member
- ✓ SBIR/STTR Phase I/II through INSTAR Lab; Phase III transition support
- ✓ OTA rapid-prototyping and IDIQ task-order teaming
- ✓ GSA MAS and relevant IDIQs on near-term roadmap

NAICS / PSC FIT

541512 Computer Systems Design Services

541330 Engineering Services

541715 R&D in Physical, Engineering & Life Sciences

Additional: 518210 / 541511 / 541513 / 541519 / 541690 / 611420

PSC: AC11, AC12, DA10, DG10, DJ10, DK10, R408, R425

SECURITY & COMPLIANCE POSTURE

- ✓ NIST 800-207 zero-trust architecture patterns
- ✓ NIST 800-53 control mapping, SBOM, signed artifacts, SLSA provenance, cATO evidence
- ✓ Continuous ATO evidence pipeline: control inheritance automation, audit-ready reporting, and real-time posture validation
- ✓ CMMC and NIST 800-171 alignment planning
- ✓ Responsible AI: audit trails, explainability, model lifecycle governance
- ✓ Post-quantum cryptography readiness aligned to FIPS 203/204/205
- ✓ Facility Clearance sponsorship: intent to pursue when sponsored

DELIVERY ARTIFACTS

- **Architecture package:** interfaces, data flows, deployment topology, threat model
- **Security evidence:** SBOM generation, signed artifacts, SLSA provenance, cryptographic attestation
- **AI governance:** model cards, evaluation traces, audit logs, human oversight
- **Transition plan:** pilot metrics, backlog, risk register, ATO/cATO roadmap
