RAVONICS

Federal Technology & AI Solutions - Defense, Intelligence & Civilian Agencies

FEDERAL MISSION FIT

Ravonics LLC is an SBA HUBZone-certified small business delivering AI/ML, autonomy, edge AI, and applied R&D for defense, intelligence, and federal civilian missions. We pair founder-led AI and federal capture experience with production-mature partner technology and the INSTAR Lab research bench to move prototypes toward compliant, deployable mission systems.

CORE CAPABILITY CLUSTERS

- **Agentic AI & Responsible Decision Systems** - explainable models, decision audit trails, lifecycle model governance, mission-tuned AI workflows
- **Edge AI, HPC & GPU Orchestration** - MoE-compressed, OpenAI-compatible federated GPU inference, air-gapped operation, policy-driven GPU scheduling
- **Computer Vision & Sensor Fusion** - multi-domain sensor fusion, imagery triage, and constrained-edge inference
- **Autonomy & Robotics Software** - autonomy workflows, robotics software, mission planning support
- **Multi-Domain Intelligence & C2** - common operating picture, multi-domain data fusion, and decision support
- **Security Evidence Automation** - control traceability, signed artifacts, and continuous evidence workflows
- **Post-Quantum Cryptography & Applied R&D** - ML-KEM, ML-DSA, SLH-DSA; FIPS 203/204/205 readiness, key management, cryptographic agility
- **Systems Engineering & Integration** - mission data exchange, legacy modernization, API/data fabric design, and deployment planning

FOUNDER & KEY PERSONNEL

- **Sean Hackney, company-reported prior roles:** co-authored $36M+ in federal prime contract wins as key personnel
- **Enterprise AI product leadership, company-reported prior role:** enterprise AI product leadership
- **Venture AI founder, company-reported prior role:** CTO & co-founder of Divercity.io; TechStars HR Tech AI application recognition
- **Founder credentials, company-reported:** Sean Hackney holds an active U.S. Public Trust, which is not a security clearance; Azure Solutions Architect Expert and AWS SA Professional certifications (confirm current status independently); 30+ yrs CS, 20+ yrs AI/ML

DIFFERENTIATORS

- **Founder-led credibility** - 30+ yrs CS/AI/ML with production AI delivery across federal contracting, enterprise SaaS, and venture AI
- **Prototype-to-compliance bridge** - converts promising technology into auditable federal delivery packages with controls, evidence, and transition planning
- **Applied research depth** - INSTAR Lab 501(c)(3) physics and materials-science bench; deep PQC and emerging-tech R&D
- **Integration-first delivery** - deployment paths, control traceability, and GitOps patterns defined early rather than after prototype success

ECOSYSTEM ASSETS AVAILABLE THROUGH RAVONICS

- **Dream Limited:** capture automation, proposal workflows, opportunity operations
- **Droid Ops Inc, company-reported:** Kubernetes & multi-cloud management (AWS, Azure, GCP); agentic security; a platform mapping 150+ NIST 800-53 controls, not a Ravonics certification
- **Viper Dynamics:** ISTAR, drone intelligence, and swarm intelligence systems
- **INSTAR Lab Inc:** affiliated 501(c)(3) research partner for applied physics and AI/ML R&D; potential technology transition depends on the applicable opportunity
- **Cloud & Infrastructure:** Azure Government / AWS GovCloud architecture; zero-trust patterns

DELIVERY FOOTPRINT

Deployment posture: declared capability for disconnected, hybrid-cloud, and air-gapped environments.

COMPANY SNAPSHOT

UEI	YCBDVKN1A9G7
CAGE	20DS8
SAM.gov	Registered (Active)
Entity	Ravonics LLC
Founded	2026, West Virginia LLC
Status	Small Business; **SBA HUBZone Certified**

Sources checked 2026-09-09; SBA profile updated 2026-09-01; HUBZone entrance date 2026-06-22.

ACQUISITION PATHWAYS

- ✓ 10% price-evaluation preference and set-aside/sole-source eligibility per FAR 19.13; subcontracting credit available
- ✓ Prime, subcontractor, or technical team member
- ✓ INSTAR Lab is an affiliated research partner for applied R&D and potential technology transition; no SBIR/STTR award eligibility is claimed
- ✓ OTA rapid-prototyping and IDIQ task-order teaming
- ✓ GSA MAS and relevant IDIQs on near-term roadmap

NAICS / PSC FIT

541512 Computer Systems Design Services (primary)
518210 Computing Infrastructure Providers, Data Processing, Web Hosting, and Related Services
541330 Engineering Services
541511 Custom Computer Programming Services
541513 Computer Facilities Management Services
541519 Other Computer Related Services
541690 Other Scientific and Technical Consulting Services
611420 Computer Training

PSC: AC11, AC12, DA10, DG10, DJ10, DK10, R408, R425

SECURITY & COMPLIANCE POSTURE

- ✓ NIST 800-207 zero-trust architecture patterns
- ✓ Droid Ops platform, company-reported: 150+ NIST 800-53 control mappings, cATO evidence, and continuous posture validation; this is a partner capability, not a Ravonics certification
- ✓ CMMC and NIST 800-171 alignment planning
- ✓ Post-quantum cryptography readiness aligned to FIPS 203/204/205
- ✓ Facility Clearance sponsorship: intent to pursue when sponsored

DELIVERY ARTIFACTS

Architecture: interfaces, data flows, deployment topology, and threat model. **Security:** SBOM generation, signed artifacts, SLSA provenance, and cryptographic attestation. **AI governance:** model cards, evaluation traces, audit logs, and human oversight. **Transition:** pilot metrics, backlog, risk register, and ATO/cATO roadmap.
